45 Artificial Intelligence Companies to Watch in 2021

rom Google and Amazon to Apple and Microsoft, every major tech company is dedicating resources to breakthroughs in artificial intelligence. Personal assistants like Siri and Alexa have made AI a part of our daily

lives. Meanwhile, revolutionary breakthroughs like self-driving cars may not be the norm, but are certainly within reach.

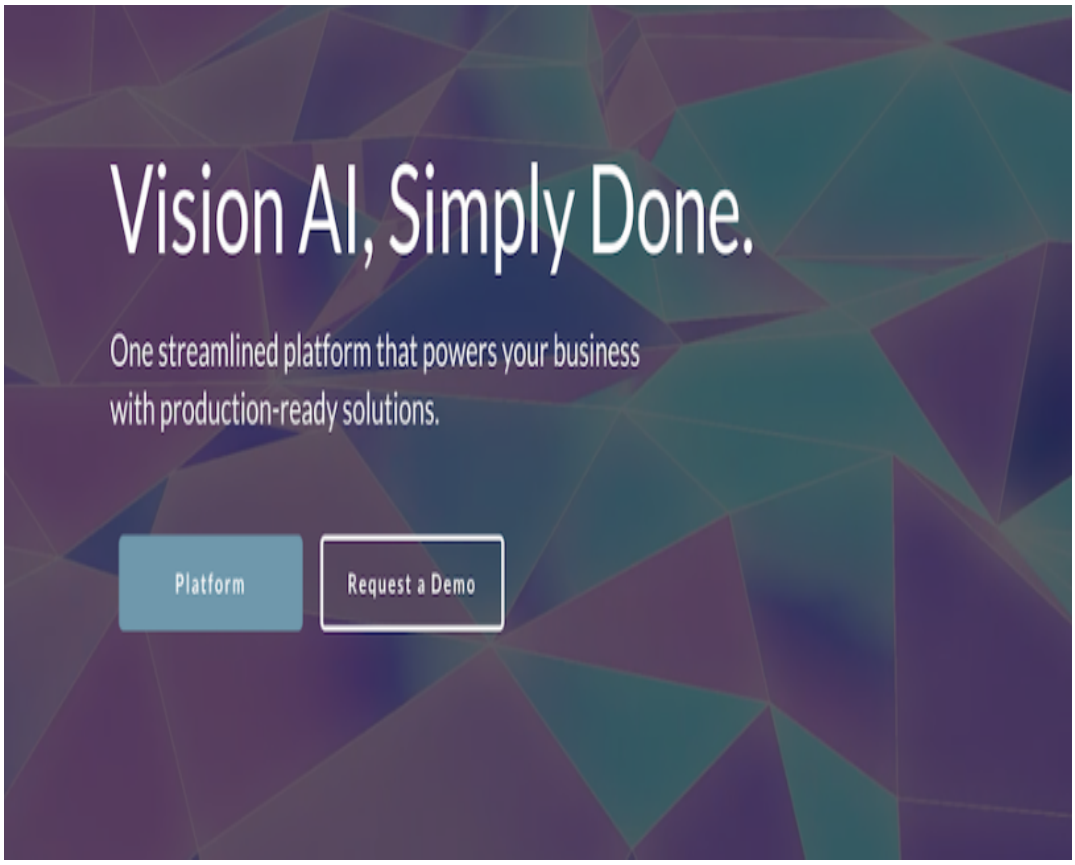

TOP AI COMPANIES TO KNOW

CCC
Veritone
LogicMonitor
nate
People.ai
Ascent
Osaro
Riskified
Nvidia
Nuro
Tempus
Ascent
DataRobot
Freenome
Grammarly
CloudMinds
H20.ai
Nauto
OpenAI
Sift Science
SoundHound
Vicarious
Zoox
Zymergen

As the big guys scramble to infuse their products with artificial intelligence, other companies are hard at work developing their own intelligent technology and services.

The AI industry even broke records during the global uncertainty of the COVID-19 pandemic, with artificial intelligence startups raising $33 billion in 2020, according to CB Insights. With investors clamoring and the technology cross-pollinating across countless industries, we've rounded up 45 artificial intelligence companies and AI startups worth keeping an eye on.

Plainsight

Plainsight

View Profile

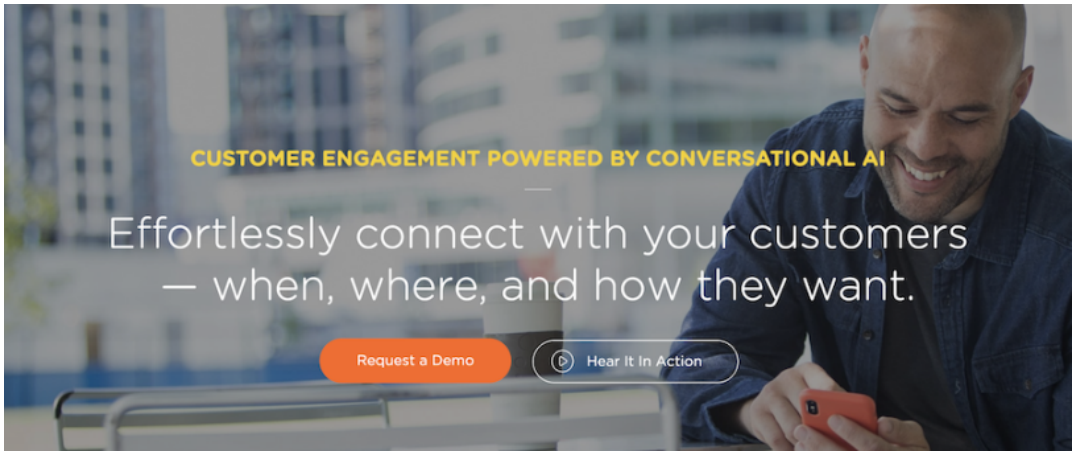

We are hiring

Industry: Computer Vision, Machine Learning

Location: Fully Remote

What it does: AI has become a powerful tool, but few businesses have access to its capabilities. Plainsight is ending this trend with its low-code platform, allowing companies to operate more efficiently. Organizations can now activate camera systems, predictive labeling features, and machine learning automation processes. With the resources of Plainsight, collecting visual data and enhancing training models becomes easier than ever.

Interactions

Interactions

View Profile

We are hiring

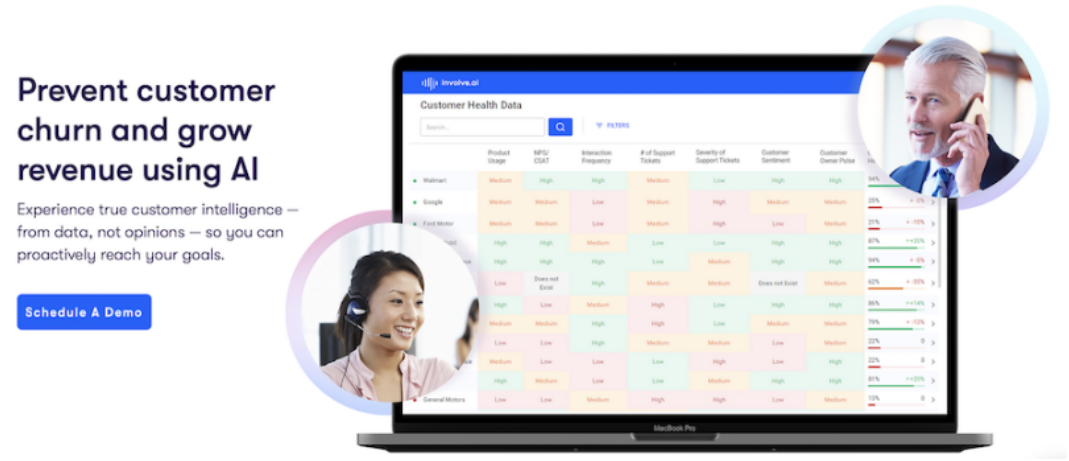

Industry: Machine Learning, Natural Language Processing

Location: Boston, MA

What it does: Customers expect fast yet personable service, so Interactions provides enhanced customer service with its AI technology. Intelligent Virtual Assistants sift through background noise while picking up on jargon to sustain conversations with customers. If companies want to take their chats to social media, Interactions also offers tools to prioritize messages and suggest responses. Now businesses can stay on top of customer needs with the innovative products of Interactions.

Involve AI

---

involve.ai

[involve.ai](#)

[View Profile](#)

[We are hiring](#)

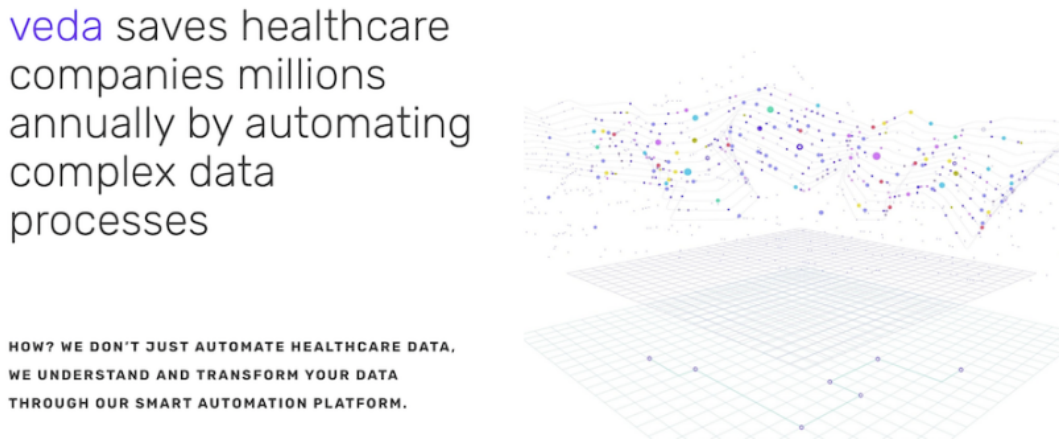

Industry: Software, Professional Services

Location: Los Angeles, CA

What it does: Changing a customer's mind during a heated discussion is not an ideal situation, but [Involve AI](#) provides the tools to avoid such a scenario. The company harnesses the power of cutting-edge technology to unify business' data, craft detailed customer profiles, and alert teams of customers at risk of leaving. This way, organizations can reduce churn with a data-centered approach to customer service.

veda

veda

View Profile

We are hiring

Industry: Healthtech, Machine Learning

Location: Madison, WI

What it does: With many inefficiencies in the healthcare industry, veda is improving patient experiences with NASA-backed intelligence and AI technology. Providers can automate data-related tasks, removing human errors and organizing information quickly. Resolving administrative issues enables healthcare experts to spend less time tracking down records and more time caring for patients.

Urbint

Urbint

View Profile

We are hiring

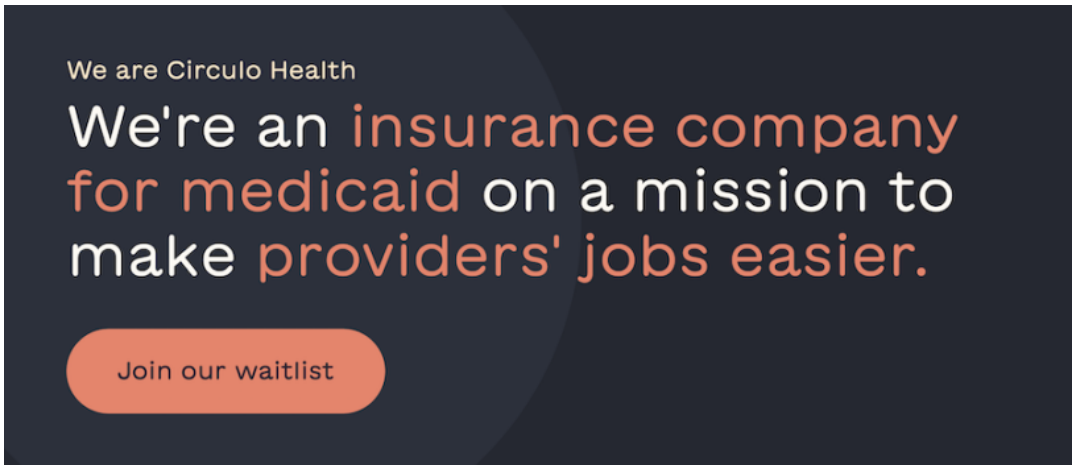

Industry: Machine Learning, Analytics

Location: NYC

What it does: Urbint brings the power of AI and cloud-based technology to various infrastructure projects, allowing companies to anticipate potential dangers and issues that could arise down the road. By mapping out vulnerable and high-risk areas, Urbint keeps workers and communities safer. Organizations can now move forward with confidence knowing all possibilities are accounted for.

Circulo Health

Circulo Health

View Profile

We are hiring

Industry: Healthcare

Location: Columbus, OH

What it does: Simplifying the healthcare system for Medicaid patients has become more imperative than ever, but delivering personalized care is still in the back of providers' minds. That's why Circulo Health is teaming up with Olive.ai to provide more high-tech and humane healthcare experiences. Doctors can offer various ways for patients to communicate with them, making regular updates, health tracking, and virtual visits much more convenient for all parties involved.
